INFOhio

OHIO'S PreK-12 DIGITAL LIBRARY

College-ready Ohio students in grades 7-12 can apply for College Credit Plus admission to any Ohio public or participating private college. Visit the Ohio Higher Ed University System of Ohio's College Credit Plus page and contact your school guidance counselor for more information.

The purpose of College Credit Plus is to promote rigorous academic pursuits and to provide a wide variety of options to college-ready students. To produce college-level work, students need to use high-quality, academic resources -- the kinds of resources that are available from INFOhio, OhioLINK, and Ohio's university libraries. Students enrolled in CCP courses and CCP instructors should have access to resources through their college's library.

If you are trying to log into your college library's research resources and can't access them, try the following:

1. Use the right login. Check that your PIN, university ID, username, password, and other forms of identification are correct. Double-check by calling the IT department or library at the college through which you are enrolled.
2. Try logging in from home or through a network other than your secondary school. If you are able to access the resources from home but not from your secondary school, your school may be blocking these resources. If so, contact your school's IT department.
3. As you are problem-solving your access, use the INFOhio resources. INFOhio provides high-quality research resources for all of Ohio's PreK-12 students and educators, including those students and educators involved in CCP.

USING EASTERN GATEWAY COMMUNITY COLLEGE LIBRARY
TO ACCESS OHIOLINK RESOURCES

1. What do I need in order to log into electronic resources available through the college's library?

   To use the databases for which EGCC has access, the student must have a library keytag with a barcode on it. The instructor for a class should email to libhelp@egcc.edu the following information:

   Instructor's name
   CC+ High School Name
   List of student names with their corresponding addresses
   A work mailing address for the instructor so that the keytags can be delivered to them

Allow 10 days turnaround time to receive the keytags.

If an <u>individual student</u> wants to use the library resources, follow the same procedure; send the individual's name and address along with the other information.

Remember, <u>materials are not censored in any way</u>, and students will have access to all types and levels of material.

2. Will I be able to request print materials online?

   Yes, students may request materials online. HOWEVER, the student must pick up the items from the nearest OhioLINK college library using the "pick-up anywhere" option.

   An alternative is to go to the local public library and use the SearchOHIO service there to access OhioLINK collections.

   In all cases, the student should attempt to use the resources provided by INFOhio first. Check with your high school librarian for details.

3. Can I view my account online?

   Yes, just you can look at your account using your name and keytag information. The account lets you know what books you have requested and/or have checked out of OhioLINK libraries. Go to www.egcc.edu > Library (lower right, under "Quick Links") and click on "Check my account" under QUICK LINKS.

4. How do I contact the college library staff?

   Email the library staff at libhelp@egcc.edu
   Call 740-264-5591 x.1653 between 8am-4pm, M-F; identify yourself as College Credit +

5. Is library instruction available for my class?

   Go to www.ohiolink.edu ; you will find instruction on how to navigate the various features of OhioLINK on the lower left hand side of the webpage:

Visit the EGCC Library page at   www.egcc.edu > Library   for additional resources.
