# Peer Advising

## A Peer to Peer Mentoring Program

Do you wish you could get advice from a student that has already gone down the path you are now walking? Do you wonder how you can make the most of your time as a student of EGCC? Would the advice of a peer help you in a class that you're having a difficult time navigating? Then look no further. Phi Theta Kappa members of EGCC's Alpha Omicron Nu chapter want to save you some time and headache by sharing with you ways to make your experience easier and more rewarding.

Watch your email for more details.
